

## LEGEND

St. John's Cemetery is positioned in an east-west direction. All Sections begin at the Gatehouse, which is on the far eastern part of the property. The center road through the Gatehouse divides the cemetery into to parts.

All Sections to the right of this road are odd numbers. Those to the left of this road are even numbers. For example, the first Section on the right is "1", followed by "3", "5", etc. all the way to "73". The first Section on the left is "2", followed by "4", "6", etc. all the way to "74". *There are Section markers in the cemetery.*

Most Sections are divided into 28 lots; however, some Sections consist of only 14 Lots. Most Lots are 7 yards long (east – west direction) and 6 yards wide (north – south direction). Sections with “B” designations are the same size as regular Sections. Sections 43.5 and 44.5 are 1/2 of the width of a Section with 14 Lots. *There are no Lot markers in the cemetery.*

Examples of the layout of a regular Section with 28 Lots are below:

### ODD SECTION LOT LAYOUT

CENTER ROAD	1	3	5	7	9	11	13	15	17	19
	2	4	6	8	10	12	14	16	18	20 etc.

### EVEN SECTION LOT LAYOUT

19	17	15	13	11	9	7	5	3	1	CENTER ROAD
20 etc.	18	16	14	12	10	8	6	4	2	

Sections with 14 Lots are numbered sequentially (e.g. 1, 2, 3, 4). The numbering begins at the Center Road.
