

## LEGEND

St. John's Cemetery is positioned in an east-west direction. All Sections begin at the Gatehouse, which is on the far eastern part of the property. The center road through the Gatehouse divides the cemetery into to parts.

All Sections to the right of this road are odd numbers. Those to the left of this road are even numbers. For example, the first Section on the right is "1", followed by "3", "5", etc. all the way to "73". The first Section on the left is "2", followed by "4", "6", etc. all the way to "74".

Each Section is divided into 28 Lots. These Lots are positioned the same. However, for convenience, both the line-up of the Lots in the odd and even Sections are provided below:
